

## SOAP IS BAD FOR THE HAIR

Soap should be used very sparingly, if at all. If you want to keep your hair looking its best, most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is just ordinary mulled coconut oil which is pure and greaseless, is cheaper and better than any or anything else you can use. One or two teaspoonsful will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulled coconut oil at any pharmacy, and a few coupons will supply every member of the family for months.

## VARSITY TENNIS TEAM TO MAKE LONG TRIP

Norman, March 18.—The longest trip of any Oklahoma athlete team for the purpose of meeting another college or university will be made in May by the Sooners tennis team. Led by lap the Oklahomans will extend their excursion northward until they meet the followers of the older sport at the University of Wisconsin at Madison. The universities of Kansas, Missouri, Iowa, Washington of St. Louis, Illinois, Chicago and Wisconsin will be played on this trip. With the strongest team in the history of the institution, the Sooners' racquet wielders are expected to make themselves felt in the championship race of western colleges for the tennis title.

## STARTLING RESULTS OF HEREDITY

## STORY OF TWO FAMILIES AND THEIR DESCENDANTS OF 2591

The Medical Times prints the following story:

Like generations like. The son inherits the good and evil traits of the parent and of the parents' parents even unto many generations. While the instances to prove these facts are too numerous to mention, it may be well to quote some of the more striking.

Dr. Havelock Ellis has described a German family, of whom 834 persons were known to have been descended from a physically strong but mentally weak, drunken woman. The very large majority of these persons were prostitutes, drunkards, tramps, paupers and criminals. Some were murderers, and to support this horde of undesirables the German government has been put to an expense of more than \$1,250,000.

Most physicians are familiar with the notorious Jukes family, 130 of whom have been convicted of crime. The cost of this family to the country has been considerably in excess of \$1,000,000.

Heredity fortunately is not all of the degrading type. Of the many splendid examples of the beneficence of transmitting good traits to posterity one is found in the descendants of Jonathan Edwards, not one of whom was ever convicted of crime and most of whom have occupied positions of honor and trust.

For the sake of comparison we append two tables as object lessons:

MAX JUKES.  
(Born 1729.)  
1,200 descendants identified.  
300 in the poorhouse.  
300 died in childhood.  
440 viciously diseased.  
400 physical wrecks.  
50 notorious prostitutes.  
7 murderers.  
60 habitual thieves—averaged 12 years in jail.  
JONATHAN EDWARDS.  
(Born 1703.)  
1,294 descendants identified.  
235 college graduates.  
1 Vice President.  
3 United States Senators.  
12 college presidents.  
65 college professors.  
60 physicians.  
100 clergymen.  
75 army and navy officers.  
60 prominent authors.  
100 lawyers.

OKLAHOMA OWNS 5 MILLION WORTH  
Washington, March 18.—Educational institutions in but nine states in the union exceed in value those of Oklahoma, according to a bulletin just issued by the census bureau for the year 1913. The value of Oklahoma's educational institutions at the close of the fiscal year 1912, was \$5,585,000, that amount being exceeded only by California, with educational institutions valued at \$16,153,781; Washington, with \$11,902,100; New York, \$7,699,655; Ohio, \$5,752,843; Illinois, \$5,787,377; Michigan, \$5,650,989; Wisconsin, \$5,519,841; Minnesota, \$6,495,820 and Iowa, \$5,781,207.

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for anyone that it fails to cure. Send for list of testimonials.

President Bert Coughlin, of the Chamber of Commerce, is certainly the right man in the right place. His idea is that the chamber must have the interests of the town at heart all the time.

## BOOZE, RICHES AND RELIGION BAD MIXTURE

## RELIGIOUS UPLIFT FOR THE CREEK INDIANS BLOCKED BY GRAFTERS

McAlester, March 18.—Wealth from oil lands and dealings with grafters have been the chief handicap to missionary work among the Creek Indians, according to Johnson Tiger, a son of Chief Moty Tiger, and a Methodist missionary, who discussed the problem of Indian missions before the mid-year meeting of the Eastern Oklahoma conference of the M. E. church, south, here this afternoon.

Thirty years ago Creeks and Seminoles, he said, were easily reached. Many of them observed the teachings of the early day missionaries, but the taking of lands in several sections and the subsequent discovery of oil have largely upset the Indians. Still Tiger is optimistic.

Both Tiger and A. S. Williams, a Choctaw missionary, declared the Indians will never assimilate with the white man's church. Williams urged the appointment of an Indian presiding elder and a segregation, to some extent of the Indian churchman. Many Indian churches are ready for self support he said.

Indian missions and the problem of the foreigner in the coal mining districts were the chief features of the opening conference of the session. The work among the foreigners was discussed by Deaconess Henry.

Nearly 200 lay and ministerial delegates are attending the conference. Two bishops, W. B. Murphree of Memphis and E. E. Hoss are among them. Bishop Murphree preached last night. Bishop Hoss is to give the closing sermon tonight.

## Rheumatism Yields Quickly to Sloan's

You can't prevent an attack of Rheumatism from coming on, but you can stop it almost immediately. Sloan's Liniment gently applied to the sore joint or muscle penetrates in a few minutes to the inflamed spot that causes the pain. It soothes the hot, tender, swollen swelling, and in a very short time brings a relief that is almost unbelievable until you experience it. Get a bottle of Sloan's Liniment for 25c. of any Druggist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief.

## AT THE THEATRES

Gets Everything But Salary.  
The achievement of getting quite as much attention from the audience as the star and no salary whatever is Michael's featured performer in J. Hartley Manners' pretty little comedy, "Peg O' My Heart," which comes to the Guthrie Theatre on Sunday, March 21st.

The audiences love Michael, not even the most fantastic imagination, could not find beauty of face or form in his appearance. His voice has no harmony of sound. He cannot sing, he cannot dance, but he always gets his applause, quite as much as any of the high-salaried players, including even pretty Marion Dentler herself. In one night he jumped from the lowest of obscurity to fame. He has been photographed and cartooned, pretty ladies have sent him roses and tit-bits and everyone in the company has nothing but kind words for him.

## DRY SCALY TETTER COVERED ARM

Began on Fingers in Watery Pimples. Itched and Burned Severely. Eyes Began to Swell. Used Cuticura. Hand, Arm and Face Smooth.

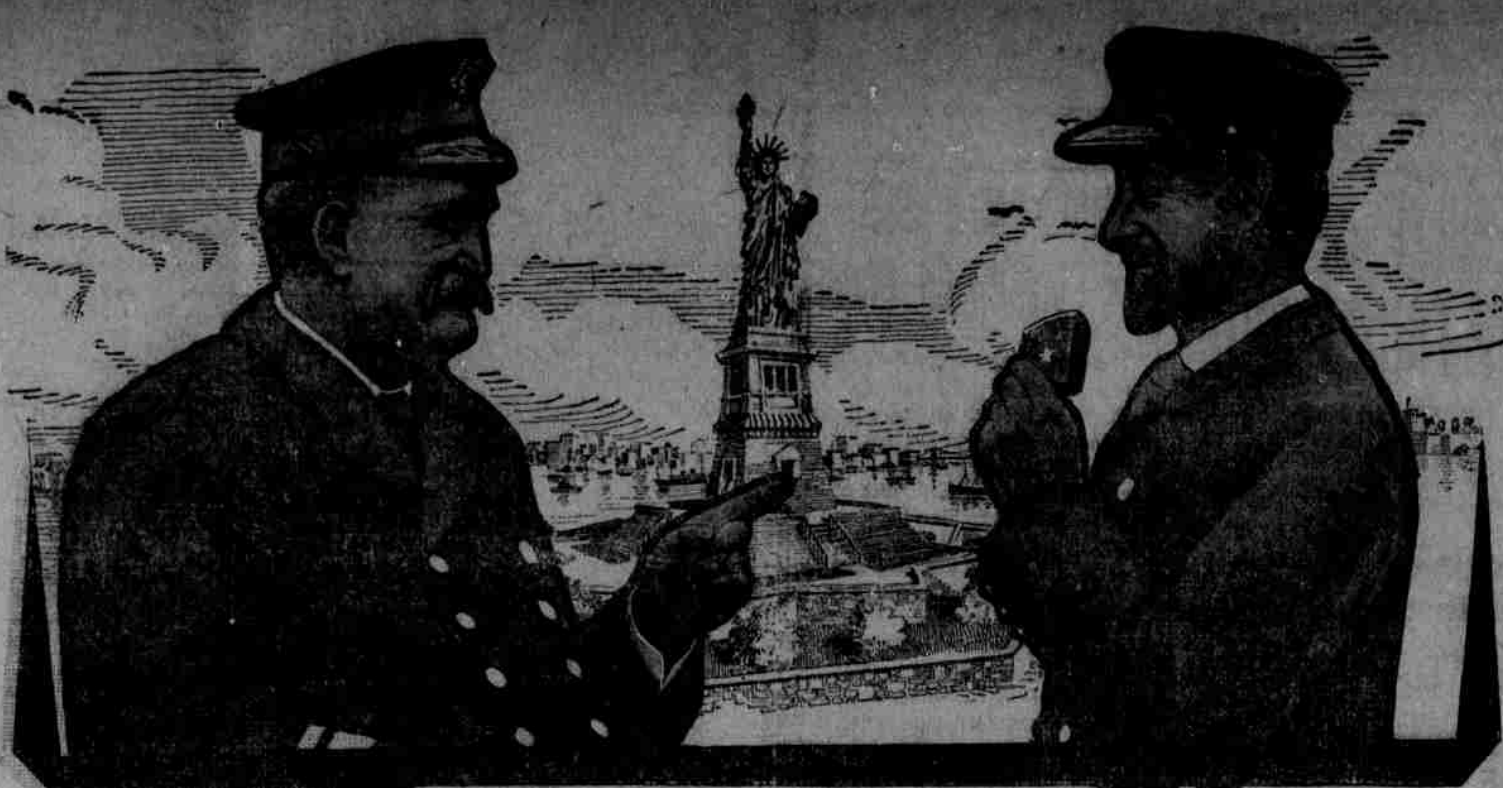

R. F. D. No. 2, Moore, S. C.—"When the trouble first began my fingers were covered with watery pimples which itched and burned very severely."

Finally my arm was covered and after a while my eyes began to swell. It was very hard to find my way for a while. My hand and arm would often crack open and bleed. The more I would rub them the more they would itch. The tetter broke dry and scaly. I could not put my hands in water for if I did they would crack open and bleed, after drying.

"I was treated for quite a while but it did not do me any good. I tried all kinds of the salves but found no relief in them. Finally someone told me to try Cuticura Soap and Ointment. I did and now all the scales are gone and my hand, arm and face are as smooth as ever. I owe all my cure to Cuticura Soap and Ointment." (Signed) Charlie Floyd, October 8, 1914.

"STAR—A Good Thing To Pass Along"

## Men Who Chew Are Men Who DO

WHO helped make New York one of the world's greatest ports and STAR the world's biggest selling brand of Chewing Tobacco?

Why, those jolly "sea dogs who sail the wat'rs round," who have an opportunity to compare STAR with tobacco in every corner of the seven seas, and who still prefer STAR.

Perhaps STAR'S "bigness" (not in weight alone but in every way) appeals to men who love the "bigness" of the sea.

For STAR is big. Tightly compressed in its thin wrapper is three-quarters of an inch of the mellowest of extra long leaf—so thick that it won't dry out like a thin plug.

STAR isn't a 14 or 15 ounce "pound" either. Each plug is 16 full chewable ounces—a "ship shape" plug made clean and kept so. STAR is so popular that it never stays long on the dealer's shelf.

Perhaps you can realize what a big brand STAR really is by this: Last year's output of STAR plugs, placed end to end, would stretch from Liverpool, in England, to Kansas City and more than 317 miles beyond.

## MONKEY TAKES A PUP TO RAISE

Muskogee, Okla., March 18.—Miss Ted is the name of a very ordinary Muskogee monkey, who, denied the pleasures of a brood of her own, has done the extraordinary thing and adopted a dog for a child.

Miss Ted, who is a lady monkey, in spite of her name, belongs to J. T. Dinkens, a South Main street grocer. She is more than a lady monkey, for she is a mother monkey. Her offspring is a stranger to the coconut groves of far-away Africa, but its possession is apparently all in the world that is needed to bring happiness to the foster mother.

The monkey lives in a barn. For a long time her only animal companion was an English terrier, which also belonged to Dinkens and also inhabited the barn. Three months ago the terrier became the mother of pups. Then Miss Ted went right into the old trunk, where the pups lived, and kidnapped her family.

Miss Ted had been given a peep at the pups when they were placed in the trunk by Dinkens. In a moment

## Very Effective Method for Banishing Hairs

(Modes of Today.)

At very little cost any woman can rid her face of hairy growths. It is made by mixing some water with a little powdered delatone. This is spread upon the hair surface for 2 or 3 minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No harm results from this treatment but care should be used to buy real delatone.

she became transformed from the peaceful animal of the instant before. She tugged at her chain and made frantic efforts to reach the trunk but this pleasure was denied her for Dinkens thought Miss Ted was jealous of the new arrivals and was seeking to kill them.

Later, when the Simlan made so much fuss he let her have one puppy and she has become perfectly happy in its care.

## RAISED HUSBAND'S CHECK TO \$400 FROM \$100

Cushing, Okla., March 18.—There is a drifter in the oil field here who is mourning the loss of his wife and his bank account. Recently he gave her a check for \$100 but when it was presented and paid it called for \$400, thereby wiping out his bank account and placing him \$300 in the red besides. After drawing the \$400 the woman was advised by the banker that it overdraw the account by that sum, and she gave the banker \$25. The signature on the check was genuine and there was nothing to indicate that it had been raised, so it was paid. When other checks, signed by the husband, came in later, the

banker called him up. It was then, for the first time, that both the husband and the banker knew that the check as cashed by the woman had been raised. It is said the woman has returned to her former home in the east.

## A Specific Against Colds.

"If there is such a thing as a specific against colds, it is to be found in the sleeping porch or the open bed room. Next to that comes the cold sponge both in the morning," says the Youths Companion. Be as careful as you can, you will occasionally take cold and when you do you will find Chamberlain's Cough Remedy a great help in enabling you to get rid of it. Try it. Obtainable everywhere.

## AN OLD RECIPE TO DARKEN HAIR

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and glossy at once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.
